

**Kenosha Garden Railroad Society**  
Membership Application  
[www.kgrs.org](http://www.kgrs.org)

A few train enthusiasts formed the Kenosha Garden Railroad Society in 2001. Today our members reside throughout Southeast Wisconsin and we are looking forward to growing our organization into the premier model railroad train club in the Southeastern Wisconsin area.

One of the best ways to learn about large scale outdoor garden (G scale) railroading is by sharing experiences and knowledge with other enthusiasts. The Kenosha Garden Railroad Society is a group of friendly people with a passion for large scale railroading.

Even though our organization is focused on garden railroading, many of our individual members model other train scales as well including HO and O. They share their experiences and the knowledge they gained from other scale train modeling and contribute to the overall success of our organization.

Whether you are just curious about model railroading or a seasoned hobbyist, you and your family are invited to join in the fun of large scale model garden railroading. Begin your journey by considering joining our organization.
